

# What is a BankerBag?

A BankerBag is a high-quality, custom designed tote or duffel that features your company's logo and brand colors. Giving BankerBags to clients and high-performing teams is a time-honored tradition in the financial and banking worlds.

Our expert design team will help you choose from dozens of canvas, trim and color options to create a BankerBag that truly represents your company or organization. A high-visibility decorating option, such as an embroidered logo or an embossed leather patch, transforms a top-notch canvas bag into a special representation of your brand.
